

BOXYARD RTP SHOWROOM PROJECT

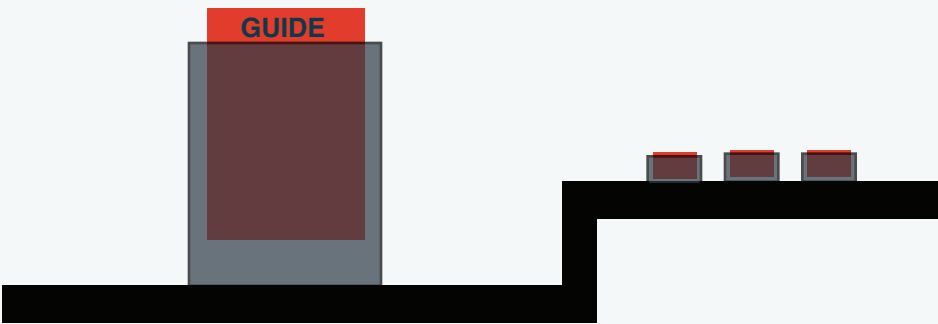

A 20ft shipping container “model” to be used as a marketing tool, giving visitors a sneak peek of Boxyard RTP. There are two types of audiences interacting with this showroom.

The first would be potential tenants on an official tour with our broker. The broker would bring them to the site, take them inside so they can get a sense for the size of space, and will likely sit down and go over the marketing materials. The second audience would be those who stumble upon it while on our campus.

welcome to the
Boxyard Showroom!
a couple of shipping containers are
coming to The Frontier Campus at RTP.
this is us trying to explain ourselves.

- The Research Triangle Foundation

Boxyard

a unique cargotecture development
that will propel and transform
Research Triangle Park
through restaurant concepts,
